

**Fernbrook Farms Environmental  
Education Center  
2021 Winter Pre-Kindergarten Semester  
3-4 Years Old**

**Class Sessions Offered:** Tuesdays 9:30am-10:30am, Tuesdays 1:30pm-2:30pm,  
Thursdays 9:30am-10:30am, OR Thursdays 1:30pm-2:30pm

**Stars in the Sky**

**January 12<sup>th</sup> or 14<sup>th</sup>**

Winter nights are an amazing sight. We will make our own interpretations of the constellations and learn about the stars that light up our sky.

**Water, Ice, Snow**

**January 19<sup>th</sup> or 21<sup>st</sup>**

The winter water cycle can be quite fascinating. Earth's most precious natural resource is fun to experiment with no matter what state it is in. During this class, the students will explore water in three states: liquid, solid, and gas.

**All About Raptors**

**January 26<sup>th</sup> or 28<sup>th</sup>**

Birds of prey range from hawks, eagles, falcons, and owls. During this class students will discover how these birds use many techniques that help them hunt at night and during the day. To get a better understanding of what owls eat and how they process their prey the students will dissect owl pellets!

**Windy Weather**

**February 2<sup>nd</sup> or 4<sup>th</sup>**

The wonders of wind! It is invisible, yet extremely powerful! During this class, the students will explore the effects that wind has on trees, grasses, and even birds. The students will also understand the power of wind in tornados and hurricanes through different experiments.

**Chickens & Ducks**

**February 9<sup>th</sup> or 11<sup>th</sup>**

Our feathered friends in our barnyard are very friendly if you can catch them! During this class, the students will be exploring the differences and similarities between chickens and ducks. What is different about their eggs, their beaks, their feet, and even their feathers!

**What's that Sound?**

**February 16<sup>th</sup> or 18<sup>th</sup>**

Sights and sounds are all around us. We will explore nature's musical gifts throughout the farm fields, forest, and barnyard!

**Investigating Trees**

**February 23<sup>rd</sup> or 25<sup>th</sup>**

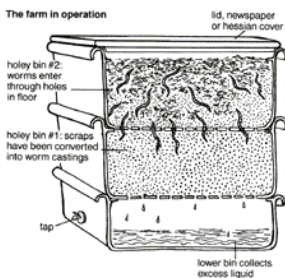

There are many ways to collect tree samples; bark rubbing, seed collecting, and twig gathering. The students will explore the variety of trees that grow around Fernbrook and observe their growing habits. After gathering and collecting a variety of samples, the students will create a tree inspired project!

**What's in our Worm Bin?**

**March 2<sup>nd</sup> or 4<sup>th</sup>**

Let us get our hands dirty in the worm bin! In this class the students will learn about the importance of worms, what they eat, and how they create fresh compost.

Our classes will observe how worms move and tunnel as well as how they survive the winter!

**\*\* Please note that the class topics for the Pre-K and Kindergarten classes are the same, but the content will be altered to fit the learning abilities of the different age groups. FFEEC is dedicated to providing age-appropriate learning experiences for all children as they explore their natural world. \***
